NO BRITISH
BLOOD
FOR FOREIGN WARS

BRITONS SHOULD FIGHT FOR BRITAIN ONLY

The UK has one of the strongest militaries in the world, with countless individuals willing to serve their country and their people. Unfortunately, however, in the hands of our politicians, the UK military has become a tool for foreign interests. Through international organisations such as NATO, British troops constantly find themselves on the front lines of overseas conflicts that have **NOTHING TO DO WITH THE UK**.

Look at the various wars in the Middle East between 2003 to 2021– for the interests of Israel and oil magnates, **636 British troops died** with around **6,101 left wounded or injured**. And what was it all for? Terrorist groups like ISIS are stronger than ever and the Taliban still control Afghanistan. And it's not just our troops that suffer either - the refugee crisis caused by these wars has plagued us with waves of illegal Muslim immigrants from the third world. These people resent our country for our part in these conflicts, which inevitably results in terrorist attacks (as seen with the 7/7 bombings, the killing of Lee Rigby and the Manchester arena attack).

Sadly, it seems our politicians haven't learnt a thing - In October 2023, Defence Secretary Grant Shapps announced that British troops would be sent to Ukraine to assist in their war with Russia. Following the attack on Israel from Hamas, PM Rishi Sunak offered "unequivocal support" to the Jewish state. If history has shown us anything, this will only result in more dead British troops, more immigration to Britain and more terrorist attacks on our soil.

Patriotic Alternative demands that our military should serve <u>Britain and the British people only</u> – not NATO, not the U.S.A. and not the Zionists. Let your MP know that no more British blood should be shed for foreign wars:
