

NO BRITISH **BLOOD** FOR FOREIGN WARS

**BRITONS SHOULD FIGHT
FOR BRITAIN ONLY**

In the hands of our politicians, British troops constantly find themselves in overseas conflicts that have **NOTHING TO DO WITH THE UK**. For example, wars in the Middle East (2003-2021), fought for the sake of Israel and oil magnates, left us with:

× 636 Dead

× 6,101 Injured/wounded

× £30.6 Billion cost

The refugee crisis caused by these wars has plagued us with waves of illegal immigrants from the third world. These immigrants resent Britain for our part in these conflicts, resulting in terrorist attacks (the 7/7 bombings, the killing of Lee Rigby and the Manchester arena attack for example).

Sadly, it seems our politicians haven't changed - In October 2023, Rishi Sunak offered "unequivocal support" to Israel in their fight against Hamas. In January 2024, former NATO Commander Richard Shirreff said that the UK must consider conscription for a war with Russia. If history has shown us anything, this will only result in more dead British troops and more terrorist attacks in our homeland.

Patriotic Alternative demands that our military should serve Britain and the British people only – not NATO, not the U.S.A. and not Israel. Let your MP know that no more British blood should be shed for foreign wars:
