## Attempts to Intimidate Political Opposition

FOR IMMEDIATE RELEASE  
30 March 2022

**(PERTH)** – On Monday, MPP Randy Hillier was in custody for 10 hours responding to charges and waiting to see if he would remain incarcerated. He has reviewed the charges and the evidence, and remains confident that he will be found not guilty of any charges.

“These charges have no merit, but represent our disturbing new reality, where political opposition to the regime will be punished with the full power of the state. I have been released on bail, and must abide by significant conditions imposed by the court. These conditions preclude me from freely expressing myself on social media, preventing me from commenting on public policy that is of the utmost importance to the public interest” Hillier said.

A substantial population of Canadians are awakening to this brave new world. They are greatly concerned about the continuous erosion of the liberty that Canada used to represent. MPP Randy Hillier is being publicly targeted for holding what our Prime Minister claims are unacceptable views that represent a small fringe minority. By targeting an elected representative, the establishment is attempting to intimidate and discourage all further dissent against their abuse of power.
