

RADC General Meeting
October 2025

Project 2025

Recap of Overview, originally shared in June 2024

Project 2025 is a nearly 1,000-page working plan which was designed to be instituted on Day One of either a Trump presidency or another GOP presidency (should he lose or be replaced by someone else). Organized by a right wing think tank, The Heritage Foundation, it was created because the Trump presidency was unexpected, chaotic, and there were too many “adults in the room” to fully implement the desired extremist agenda. To track how these measures are being implemented, please go to: <https://www.project2025.observer/en>

The four pillars of Project 2025 include:

1. The 920-page Mandate.
2. A recruitment program meant to replace career civil servants with political loyalists.
3. The Presidential Administration Academy, which will train said loyalists and any other staffers who are loyal to the Mandate.
4. The secret “Playbook,” with templates of draft executive orders, etc.

Some of the Mandate’s objectives/targets include (this list was compiled from online sources in 2024, pre-election):

- End the EPA, and anything that inhibits the fossil fuel industry
- End the NOAA
- End the CFPBA, and anything that supports consumers or impedes business
- Repeal the Inflation Reduction Act
- Curb the IRS
- Make the entire Executive Branch operate at the whim of the President (i.e., unitary executive theory or the POTUS has “plenary authority”)
- Reduce the corporate tax rate (to 18%)
- Eliminate reproductive rights and LGBTQIA rights and protections
- Establish Christian Nationalism
- Eliminate the FCC, FTC, inhibit FBI and DHS
- Eliminate the Department of Education

Please reach out to the Communications Secretary (communications@redlandsareademocrats.org) if you would like a full list of the online resources used to prepare the original Project 2025 report presented at the June 2024 meeting, and which provided the text basis for this handout.
