

END THE ROYAL SCAM

Ever heard of the Duchy of Cornwall? It's a property empire controlled by Prince William and netting him a personal income of more than £23m a year. Charles has a property empire too. It's called the Duchy of Lancaster. He gets more than £27m a year.

DITCH THE DUCHIES
ROYAL LAND IS OUR LAND

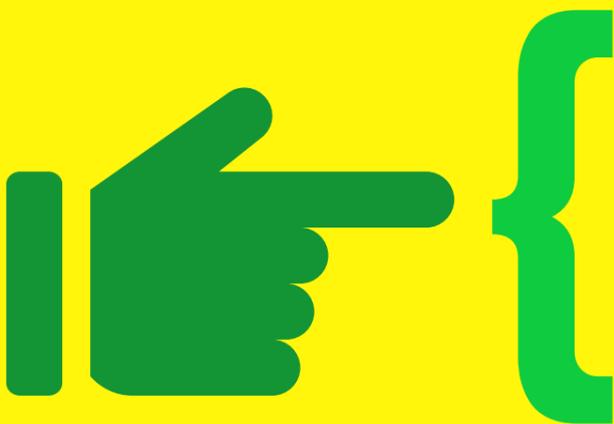

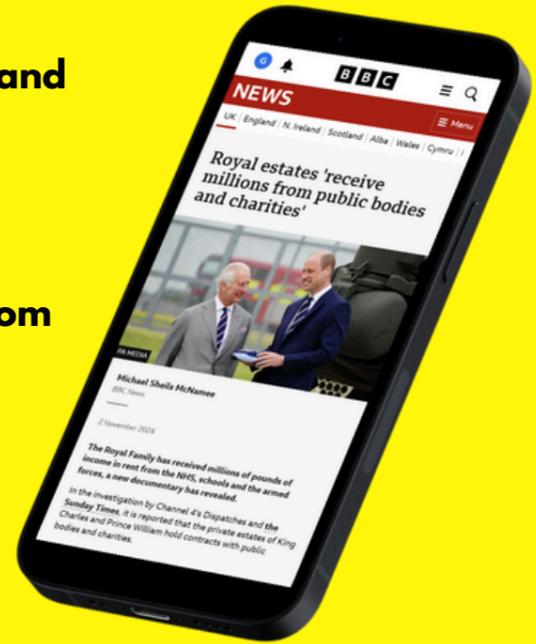

But guess what! The Duchy of Lancaster and the Duchy of Cornwall belong to the country. MPs allow the royals to take more than £50m of profit from state owned land. That's money that could be spent on local communities and public services.

These incomes cannot be justified. And these property empires give Charles and William a lot of exemptions from laws and taxes you and everyone else has to obey.

It is time government and parliament scrapped this indefensible arrangement.

Republic is calling on the government to:

1. Pass all the revenue and assets to a new 'National Estate'.
2. Stop Charles and William receiving any income from the Duchies.
3. End all legal exemptions given to Charles and William as Dukes.
4. Abolish the Duchies.

TAKE ACTION!

Republic

CHANGE THE COUNTRY FOR GOOD

NOT MY KING

Republic campaigns for the abolition of the monarchy.

Why? Because it is wrong in principle, corrupt in practice and bad for British politics.

Support for the monarchy has fallen a long way over the last ten years. From around 75% to 55% or lower. Support for a republic is now around 1 in 3 people, up from 1 in 5.

CHANGE THE COUNTRY FOR GOOD

Republic wants to reform the way our politics works, taking what we have and making it genuinely democratic.

You should have more power, better protection of your rights and equal status as citizens, not subjects.

Find out more about what's wrong with the monarchy, what's important about becoming a republic and how you can support the campaign.
