

Student Petition

Start a Drug Free Club at Our School

We, the students signing below, want to bring a **Drug Free Clubs of America (DFCA)** chapter to our school. DFCA is a wellness and career readiness program that helps us stay drug free, build confidence, and support each other — while earning real benefits along the way.

Why We Want This Club

- **Joining is 100% our choice.** No one is required to participate — but if you're in, you're in.
- **Random drug screening is part of the program — and that's the point.** It gives you a built-in answer to refuse offers: "I get tested." No explanation needed.
- **Everything stays private.** Results go only to parents. Not the school. Not anyone else.
- **It builds our future.** DFCA membership stands out on job applications and college apps.
- **Members access rewards via an app —** 1M+ options nationwide + local business perks.
- **It works.** Students already in DFCA report: 83% gained confidence, 80% stayed drug free, and 91% would recommend it to a friend.
- **It grows with us.** The more students who join, the stronger and healthier our school community becomes.

Sign to Make It Happen

Add your name below to show our administration there's student support for bringing DFCA to our school. If approved, **founding members** will choose a name for our chapter. They'll also negotiate your perks — think first in line on cookie day, early dismissal to beat the parking lot, game day rewards, a designated clean bathroom, and more.

Note: "Drug Free Clubs of America (DFCA)" is the official program name.
