

Columbia University: Stop Promoting Hate (and war crimes), Expel Hillary!

December 6, 2023—As an independent candidate for the seat in the United States Senate once occupied by Hillary Rodham Clinton, I hereby call on President Emeritus of Columbia University Lee C. Bollinger, to reconsider and then revoke his January 5, 2023 announcement of Secretary Clinton’s appointments as Professor of Practice at the School of International and Public Affairs (SIPA) and Presidential Fellow at Columbia World Projects (CWP).

I am aware that Mr. Bollinger has a checkered past, including relations with institutions like the former “Washington Post Fund,” the Council on Foreign Relations, and the New York Federal Reserve, which have each advocated for genocidal wars of aggression or other genocidal policies, but appointing the public figure, other than Madeleine Albright, most closely resembling Shakespeare’s Lady MacBeth to tutor young aspiring world leaders is really “a bridge too far.”

Under Columbia graduate President Barack “Faustus” Obama, against the recommendation of American statesman Lyndon LaRouche, Senator Hillary Clinton sold her soul to the Anglo-American intelligence apparatus, leaving her seat in the U.S. Senate to become Secretary of State in what she ambitiously, but mistakenly, believed was a vetting procedure for her ascension to the Presidency.

That Columbia University not only appointed Secretary Clinton, celebrant of the murder of Muammar Gaddafi (can anyone forget her blood curdling giggle in the October 20, 2011 CBS interview, “we came, we saw, he died,”* after Gaddafi was raped and tortured to death in the streets of Sirte, Libya), but has now banned student groups like Jewish Voice for Peace and Students for Justice in Palestine because they advocated for a “ceasefire” in Gaza, raises serious questions about the university’s self-claimed commitment to the “public good.”

For those who don’t remember, after Gaddafi’s brutal murder, which occurred under an Obama/Biden/H.R. Clinton-led NATO “humanitarian” bombing campaign, Libya was thrown into chaos. This chaos later led to the September 11, 2012 attack on the U.S. Embassy in Benghazi where four Americans, including U.S. Ambassador Chris Stevens, were killed with the military response to the attack taking an inexplicably long time, to which Hillary Clinton infamously said in a hearing, “What difference does it make? [the manner of their deaths]”

The destruction of Libya in the wake of Gaddafi’s celebrated (by HRC) death, also led to the drowning of tens of thousands of migrants in the Mediterranean in flimsy boats of human-trafficking Libyan pirates, and probably also caused the deaths of 12,000 people in recent floods, since the water management infrastructure being built under Gaddafi was destroyed in the NATO bombing campaign.

Benghazi, Libya also became a major transshipment point for U.S. manufactured heavy arms to be sent to the jihadist “moderate” Syrian rebels, a program which Gen. Michael Flynn was fired by Obama for opposing, and which has contributed to the arming of terrorists throughout Southwest Asia.

Do you really want your daughter to end up acting like Hillary Clinton? Can our troubled planet afford another disaster like President Joe Biden? Will we even make it to the 2024 elections if our nation does not make an abrupt change in policy more in keeping with the legacy of early Columbia (Kings College) graduates like Alexander Hamilton, John Jay, and Gouverneur Morris?

For the sake of world peace, and the reputation of Columbia University, let Hillary Clinton retire to some place where she can concentrate on washing off that “damn spot” and not corrupting the future leaders of our republic. Columbia owes the nation and mankind at least that much.
