

“In offering to you, my countrymen, these counsels of an old and affectionate friend, I dare not hope they will make the strong and lasting impression I could wish—that they will control the usual current of the passions, or prevent our nation from running the course which has hitherto marked the destiny of nations. But if I may even flatter myself that they may be productive of some partial benefit, some occasional good, that they may now and then recur to moderate the fury of party spirit, to warn against the mischiefs of foreign intrigue, to guard against the impostures of pretended patriotism — this hope will be a full recompense for the solicitude for your welfare, by which they have been dictated.

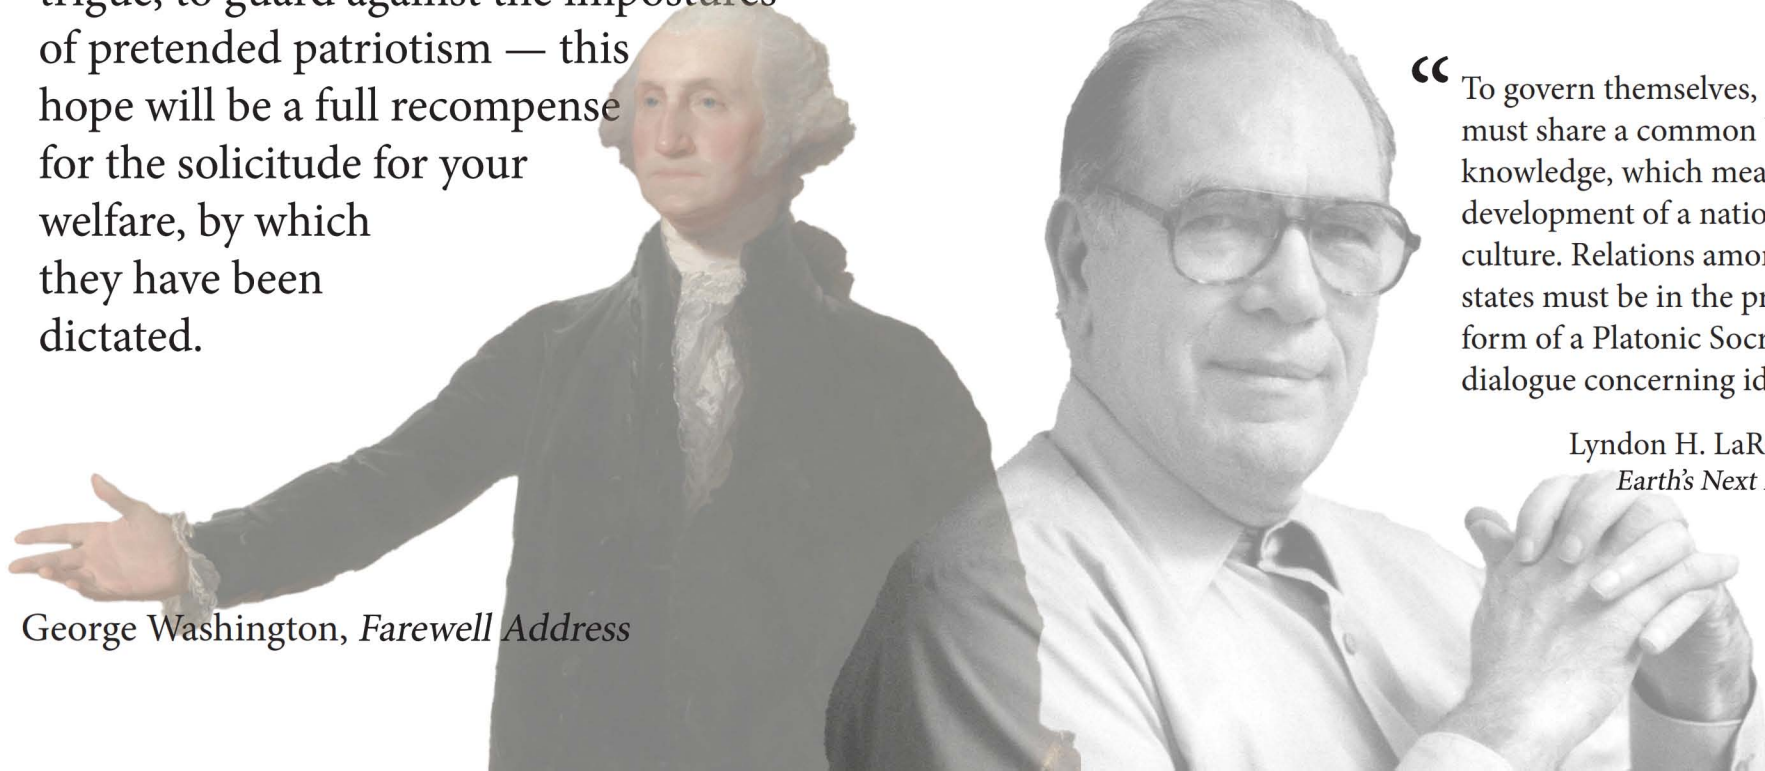

AMERICA'S NEXT FIFTY YEARS

Presidents Day Conference
Sunday, February 18th, 2024

“To govern themselves, a people must share a common basis in knowledge, which means the development of a national culture. Relations among such states must be in the principled form of a Platonic Socratic dialogue concerning ideas.”

Lyndon H. LaRouche, Jr.,
Earth's Next Fifty Years

George Washington, *Farewell Address*

* ALL MUSICAL OFFERINGS FROM
THE SARE FOR SENATE CHORUS
AND FRIENDS

The man that hath no music in himself,
Nor is not moved with concord of sweet sounds,
Is fit for treasons, stratagems and spoils;
The motions of his spirit are dull as night
And his affections dark as Erebus:
Let no such man be trusted. Mark the music.

Shakespeare, *The Merchant of Venice*

Some of Shakespeare's plays I have never read;
while others I have gone
over perhaps as frequently
as any unprofessional
reader. Among the latter
are *Lear*, *Richard Third*,
Henry Eighth, *Hamlet*,
and especially *Macbeth*.
It is wonderful.

Architecture

It is time for the United States
to reject the Malthusian
“green” agenda, and embrace
our own historical commit-
ment to growth. My program,
based on the proposals called
for by Lyndon LaRouche
for the physical economic
development of the United
States – a North American Belt and Road Initiative,
in harmony with China's BRI, as opposed to hos-
tile competition – would create at least 20 million
high-paying American jobs, increase the produc-
tivity of our economy, and stop inflation.

PAID FOR BY SARE FOR SENATE 2024

“In trying to get nations together, rather than trying to argue about bits and piece of cultural this, and cultural that – flotsam and jetsam – why not take the most fundamental thing? The human race is in danger. We have a common interest. We have a common interest, above all, in development; in development and management of such things as the mineral resources of the planet...

Define that as a *common aim of mankind* – the common aims of mankind. And let us rather than trying to impose a cultural model upon Eurasia, and the rest of the world, why not take one issue, which best defines our *unified*, common interest, and use that to bring us together, in cooperative ventures? And take two generations, 25-50 years. We can't mortgage the future indefinitely, but the next 50 years is our responsibility. If we start now, I think that's the solution.

And that's what I will be working for, from the United States. I will be fighting for this. It's going to be a big educational fight – but I think we can win it...

On the day they perceive, in general, that the system is coming down, that the institutions which they took for granted are no longer there, they're going to scream. If we provide the answer, they'll probably grab it then, where they would refuse it, before. If we *don't* provide the answer, then the Devil will!”
