

Working to bring the benefits of School Choice to the K-12 students in California.

Working to bring the benefits of School Choice to the K-12 students in California.

Government Schools are Failing our Children

OMG!

Warning!
State Legislature and California Department of Education SeXXX Education Curriculum not Appropriate for Any Children!

No wonder why our children's test scores in Reading and Math are among the worst in the Industrialized world!

Learn How You Can get **\$12,500** per year

To send your child to the school you choose.

We Believe that School Choice is the Greatest Social Justice Issue of our Time

The Evidence is Clear.

Our K-12 Students are graduating not being prepared for life or college. Many cannot balance a checkbook. It is time for a change!

There is a Proven Solution

1. Allow parents to enroll their students in a school that best suit their unique needs and talents.
2. Take the Proposition 98 State funding for education, divide it equally among all California K-12 students and place it into their own Education Savings Account.
3. ESA funds can only be used to pay tuition at the accredited school that they are attending. Funds not spent will accumulate and may be used for college or vocational training

Promotes Innovation, Academic Excellence, & Lower Cost
