Getting to Know You

This next section will give you the opportunity to provide details about who you are as a person, candidate, and member of the community.

Tell us about yourself.

I was born and raised here in Washington State. I have been working building homes for over 20 years. I recently switched careers into building software. I am a firearms expert and avid shooter. I like to volunteer for the CCA in my spare time. I am a Christ follower and an America First patriot.

List any relevant experience, leadership, or service.

Working building homes has given me insight into why housing is so expensive and how to make home building more affordable. My skills as a software developer allows me to know just how to take on big tech. I am a strong voice and advocate for the 2A and my experience with firearms can help me educate other elected officials so they don't confuse pistol braces with bump stocks. I have strong ties to my community and I am a small business owner here in Washington State. I am studying constitutional law and judicial ethics to guide my decision making when confirming presidential nominees and judges.

Describe your duty to the office you are running for and how you will achieve success.

My duty is to the constitution and the American people. I will vote NO on all new spending. I will not vote for anything other than single issue bills. I will not vote to send American troops to war. I will put the American people and their needs above the lobbyists and mega donors.

I will fight every last infringement upon personal liberty and freedom. I will support Trump and his agenda to make America great again. I already have the draft legislation for several bills ready to go. I am going to act like a guard dog protecting our rights from the administrative state. The U.S. Senate is the last stand against any and all madness coming out of congress.

What does success look like for this position and what key performance indicators should voters use to evaluate you?

Success will be getting Trumps cabinet picks appointed. Putting together an America First team to lead the U.S. Senate in a new direction. Getting rid of Mitch McConnell and the other RINO's. I would like to see voters start paying attention to candidates voting records on issues. Do you stand strong with America First values? Are you fighting the globalists in our government? Are you actually upholding the values of faith, family, and freedom America was built upon? Are you just talking tough and then making backroom deals with Democrats in the middle of the night?

What community activities are you engaged in? Have you held leadership roles in any of these organizations?

I have been a long time volunteer with the CCA(Children's Cancer Association). I have led and run many volunteer and fundraising events for them all over Oregon. I am also a Clark County Delegate and soon to be PCO.

Your Political Beliefs

This section contains a series of questions about your alignment concerning broad governmental philosophies as well as some specific issues.

Where do our rights as citizens of the United States come from? Under what conditions can government infringe or suspend them?

Our rights as citizens come from our creator(GOD). Our government recognizes those rights and the constitution is a legally binding contract between you and the government swearing that they will protect and uphold those rights. The government cannot take away our rights as they did not give them to us. We consent to be governed, we are not ruled.

Do you consider yourself a constitutional originalist or do you prescribe to it as a living document? Please explain.

I am an originalist. The constitution must be looked at from a perspective of text, history, and tradition. For instance, the plain text of the 2A says "shall not be infringed". It also says the right of the "people" to keep and bear arms. Just as well, the phrase " A well regulated militia", means in well working order, like a clock that chimes at 12 every day. It means that the people have the right to buy, keep, carry, and train with their arms so that in times of emergency they are well trained and ready to defend the nation. It does not mean government regulation. The plain text of the constitution must be respected and interpreted in it's original meaning at the time of the founding. The Bruen decision made by the current SCOTUS makes this very clear. It is NOT a living document up for modern interpretations.

What is the purpose of government? If elected, how will you perform your duties based on that "purpose?"

The purpose of government is to protect our rights and the pursuit of life, liberty, and private property. The sole purpose of the federal government should be to protect our borders, provide a military, make sure states all use the same currency and don't tariff each other, make sure we can travel freely throughout the nation, and protect our rights from state infringements. All other powers should be left to the states. I will make sure and lead us back to the principles of small government, limited interference in our daily lives, self determination and personal responsibility among the people instead of a governmental nanny state. I will start to pull funding from the administrative agencies that have run roughshod over all our lives. I will start to cut the out of control spending bankrupting us all. I will make sure and appoint presidential cabinet pics who are going to start cutting red tape. Most importantly, I will only vote to appoint constitutional purists to the bench and weed out all the activists. If we want to get back to the founders vision of America, we must have a constitutional court.

When does life begin and at what point does the government have a duty to protect it?

Life begins at conception. Abortion is a states issue now. Local governments should uphold the constitution and protect life, liberty and pursuit of happiness.

Do you have any criminal convictions, ever filed for bankruptcy, have any active or unresolved

tax liens, any conflicts of interest that may jeopardize your candidacy?

No.

Describe how you will make yourself available to your constituents and vote as their representative, adhering to the values and answers you've provided in this questionnaire.

First, I run my own social media. I read the comments and interact with the voters. I will never stop doing it either. I hate when it seems like your elected officials never read the comments, never interact, and are never at their offices. Second, I will hold regular events throughout my tenure in campaign style. I think that our leaders should be having events and interacting with the people and hearing their concerns all the time, not just when they want elected again. I want to make sure I am as accessible as possible. It is my job.

Please provide any feedback, comments, or questions that you have for the SCRCC.

I would like to see a question about how you support the 2A as it is under attack.
