

23<sup>rd</sup> May 2023

The Academic Director  
NZIHT | NZ School of Engineering, Energy & Infrastructure  
Western Institute of Technology (WITT)  
New Plymouth 4340

Dear Nita

On behalf of SEANZ we thank you very much for providing the micro-credentials training courses for solar PV grid connected, off-grid and storage industry as part of your curriculum.

This letter confirms SEANZ endorsement of the Level 4 NZQA-approved micro-credentials delivered by Te Pūkenga trading as Western Institute of Technology at Taranaki as follows:

- Grid-connected PV Systems, Design and Install
- Grid-connected Battery Storage, Design and Install
- Stand-alone Power System, Design and Install

As well as the following three courses:

- Grid-connected PV Systems, Design only
- Grid-connected Battery Storage, Design only
- Stand-alone Power System, Design only

SEANZ endorsement of these micro-credentials enables WITT/Te Pukenga to use SEANZ collateral being the SEANZ logo on your promotional material and in media releases

SEANZ has included a statement of endorsement of the courses and promotion thereof on its new website ([www.seanz.org.nz](http://www.seanz.org.nz)) SEANZ will continue to promote this also via our networks and communications with both members and through our varied platforms.

Should you have any questions or seek clarification of any points please address directly to me.

Yours faithfully

Brendan Winitana  
**Executive Chair**  
**SEANZ**
