Subject: Solar on Farms

Hi Brendan,

Please put us on the list for the EECA Solar on Farms program.

I would like to take this opportunity to thank you for all the time, effort and achievement you and your team have put into SEANZ, you are doing a great job. Your achievements are substantial in ways I don't think is wholly appreciated by a lot of members. You have broken down a lot of doors and built relationships and trust that are far reaching for our industry , a task that has taken time and perseverance and I imagine a lot of frustration.

Thank you for your personal efforts, SEANZ would not be the organisation it is today without you.

Kind Regards,

David Gilbert
Managing Director
