# D15 With Palestine guide

## Questions to ask General Election canvassers:

- 1. Sanction Israeli apartheid & terror State:** What's your position on the Occupied Territories Bill? If you are FF/FG/Greens – how do you explain that this Bill has been put on the backburner and blocked by your government for almost six years?
- 2. No handshakes or shamrocks for imperialist genociders:** What's your position on visits / handshakes / bowls of shamrocks to the Whitehouse on St. Patrick's Day? Taoiseach Simon Harris met Biden face to face and failed to object to US weapons being sent to Israel to facilitate a genocide. What's your position on this?
- 3. Shut down the Israeli embassy:** Do you support the expulsion of the Israeli Ambassador and the shutting down of the Israeli embassy in Ireland?
- 4. No weapons or warplanes in Shannon or Irish airspace:** Will you demand the inspection of planes in Shannon Airport to ensure no weapons of war are being transported through Ireland? What have you got to say about weapons headed to Israel going through Irish airspace? FF/FG/Greens – what have you got to say about your failings on this question when in government during an unfolding genocide, as detailed by The Ditch news website?
- 5. End dual use export licenses to Israel:** Do you support an immediate ban on the export of dual use goods (that can be used for military purposes, as well as non-military purposes) to the Israeli State from Ireland, which to date amounts to €53 million?
