Table 22

Q5. In the summer of 2022, temperatures of more than 40 degrees centigrade were recorded in the UK for the first time. Met Office research shows that these temperatures are now thirty times more likely than before climate change. How well prepared is our country for more hot summers? How well prepared are:

Infrastructure such as roads and railways

Absolutes/col percents

Table 28

Q5. In the summer of 2022, temperatures of more than 40 degrees centigrade were recorded in the UK for the first time. Met Office research shows that these temperatures are now thirty times more likely than before climate change. How well prepared is our country for more hot summers? How well prepared are:

Historic buildings and tourist destinations
