

Public First Poll for the FDA (Red Wall Constituencies)

Fieldwork: 18th Jul - 24th Jul 2022
Interview method: Online Survey
Population represented: Red Wall adults
Sample size: 542

Methodology:

All results are weighted using Iterative Proportional Fitting, or 'Raking'. The results are weighted by interlocking age and gender to Nationally Representative Proportions

Public First is a member of the BPC and abides by its rules. For more information please contact Seb Wride (seb@publicfirst.co.uk)

List of Tables

1	Which do you think are the most important issues facing the country at this time? Please tick up to three	5
2	Which of the following best describes where you would typically work?Select any which apply. If your work is a mixture of the below, please select all that apply	8
3	In your job, do you currently do any of your work from home?	11
4	You said you currently work from home at least on occasion. On the days when you are working from home, do you have the option to work from an office or other place of work?	14
5	You said you currently work from home at least on occasion. In your last working week, how many days did you work from home rather than in an office or other place of work?	17
6	And ideally, how many days would you want to work from home rather than in an office or other place of work?	20
7	At any point during your working life, have you worked in a job where you were working from home for some of the time?	23
8	How possible do you think your job would be to do at home?	26
9	Do you have a close friend or relative who works from home for some or all of their job?	29
10	You said that you work from home at least some of the time. Thinking of the times when you are working from home, do you personally find it easier or harder to focus when at home compared to an office or equivalent?	32
11	And would you say you are personally more or less productive when working from home?	35
12	Do you agree or disagree with the following?: Working from home has improved my work-life balance	38
13	Do you agree or disagree with the following?: Since working from home work has eaten into my free time	41
14	Do you agree or disagree with the following?: I am more likely to answer work-related emails out of working hours when working from home	44
15	Overall, has working from home had a positive or negative effect on your wellbeing, or no effect either way?	47
16	Are you satisfied or dissatisfied with how often you currently work from home or from an alternative place of work?	50
17	Since the Coronavirus pandemic, there has been an increase in the number of people working from home. In your view, what are the advantages, if any, of this increase in working from home?Select any which apply	53
18	And what are the disadvantages, if any, of this increase in working from home?Select any which apply	56
19	In general, do you think working from home rather than at an office has a positive or negative effect on the following?: Employee mental health	59
20	In general, do you think working from home rather than at an office has a positive or negative effect on the following?: Employee motivation	62
21	In general, do you think working from home rather than at an office has a positive or negative effect on the following?: Colleague relationships	65
22	In general, do you think working from home rather than at an office has a positive or negative effect on the following?: Teamwork	68
23	In general, do you think working from home rather than at an office has a positive or negative effect on the following?: Employee creativity	71
24	In general, do you think working from home rather than at an office has a positive or negative effect on the following?: Employee productivity	74
25	In general, do you think working from home rather than at an office has a positive or negative effect on the following?: Employee concentration and focus	77
26	In general, do you think working from home rather than at an office has a positive or negative effect on the following?: Company profits	80
27	In your view, which of the following groups of people most want to work from home rather than in an office or other work environment?Select any which apply	83
28	Which of the following comes closest to your view?	86
29	The civil service is a group of employees who work to support the Government and policy decision making. We are referring here to the civil service which works in the administration of Government business, and NOT other publicly funded jobs (e.g. police, army, NHS employees). Are any of the following true for you?Please select any which apply	89
30	Would you say that you have a positive or negative opinion of the civil service?	92

31 Recently there has been a push for civil servants to work in the offices more often rather than at home. Which of the following comes closest to your view? 95

32 Currently large offices in the centre of London which taxpayers are funding are sitting empty as civil servants work at home, which is a waste of taxpayer money 98

33 People who are working from home are not really getting any work done. Civil servants need to get back to the office so that they can be more productive 101

34 Civil servants working from home will damage the ability of younger civil servants to progress in their careers and form meaningful relationships with their colleagues 104

35 Civil servants working from home rather than in the office damages the economy in central London, with local coffee shops missing out on business they would otherwise have 107

36 Allowing civil servants to work from home means that Government jobs with decent pay can be made more widely available to other areas of the UK . . 110

37 Allowing civil servants to work from home will boost the economy in the areas that they live in, meaning they spend money in local businesses where they live rather than in the centre of London 113

38 Allowing civil servants to work from home opens up civil service job opportunities to people who would find it difficult to get into the office every day, such as those with childcare responsibilities 116

39 The civil service moving to working from home more often means that the Government can sell off central London work space, ultimately saving the taxpayer money 119

40 Taking these arguments into account, which of the following comes closest to your view? 122

41 And, overall, would you support or oppose making it mandatory for civil servants to work in the office rather than at home? 125

42 Which of those arguments would you say you found most convincing overall? 128

43 Jacob Rees-Mogg has said that if a civil servant is not back in their office it is fair to assume that their job does not need to be in London, and therefore they may lose their job or have to travel to an office in a different part of the country when they go in. Do you agree or disagree with this? 131

44 Some say that if a civil servant is not back in their office it is fair to assume that their job does not need to be in London, and therefore they may lose their job or have to travel to an office in a different part of the country when they go in. Do you agree or disagree with this? 134

45 Boris Johnson said that in his experience, working from home involves spending an awful lot of time making another cup of coffee and then... getting up, walking very slowly to the fridge, hacking off a small piece of cheese, then walking very slowly back to your laptop and then forgetting what it was you're doing Do you agree or disagree with this description of working from home? 137

46 "Working from home involves spending an awful lot of time making another cup of coffee and then... getting up, walking very slowly to the fridge, hacking off a small piece of cheese, then walking very slowly back to your laptop and then forgetting what it was you're doing" Do you agree or disagree with this description of working from home? 140

47 Jacob Rees-Mogg left notes saying "sorry I missed you" at empty civil servant desks as part of the drive to get civil servants to return to the office. Do you think this was a fair or unfair thing to do? 143

48 Which of the following comes closest to your view? 146

49 Which of the following comes closest to your view? 149

50 Do you agree or disagree with the following?: Jacob Rees-Mogg and Boris Johnson are just trying to turn people against civil servants to distract from other issues 152

51 Do you agree or disagree with the following?: Civil servants are costing the taxpayer unnecessary money by refusing to return to offices 155

52 Do you agree or disagree with the following?: Civil servants tend to be biased against the Conservative Government 158

53 Do you agree or disagree with the following?: Civil servants tend to have a bias towards supporting the Conservative Government 161

54 If the civil service was to move back to working fully in the office (including in office across the country outside of London), do you think it would make it easier or more difficult for any of the following people to work in the civil service, or have no impact?: People in the North of England 164

55 If the civil service was to move back to working fully in the office (including in office across the country outside of London), do you think it would make it easier or more difficult for any of the following people to work in the civil service, or have no impact?: People in the Midlands 167

56 If the civil service was to move back to working fully in the office (including in office across the country outside of London), do you think it would make it easier or more difficult for any of the following people to work in the civil service, or have no impact?: People in the South of England 170

57 If the civil service was to move back to working fully in the office (including in office across the country outside of London), do you think it would make it easier or more difficult for any of the following people to work in the civil service, or have no impact?: People in the devolved nations (Scotland, Wales, Northern Ireland) 173

58 If the civil service was to move back to working fully in the office (including in office across the country outside of London), do you think it would make it easier or more difficult for any of the following people to work in the civil service, or have no impact?: People with children or childcare responsibilities 176

59 If the civil service was to move back to working fully in the office (including in office across the country outside of London), do you think it would make it easier or more difficult for any of the following people to work in the civil service, or have no impact?: People with caring responsibilities 179

60 If the civil service was to move back to working fully in the office (including in office across the country outside of London), do you think it would make it easier or more difficult for any of the following people to work in the civil service, or have no impact?: Young people starting out in their careers 182

61 If the civil service was to move back to working fully in the office (including in office across the country outside of London), do you think it would make it easier or more difficult for any of the following people to work in the civil service, or have no impact?: Older people at the end of their careers 185

62 If the civil service was to move back to working fully in the office (including in office across the country outside of London), do you think it would make it easier or more difficult for any of the following people to work in the civil service, or have no impact?: People with physical disabilities or access requirements 188

63 If the civil service was to move back to working fully in the office (including in office across the country outside of London), do you think it would make it easier or more difficult for any of the following people to work in the civil service, or have no impact?: People with mental health conditions 191

64 Which of the following, if any, do you think are the reasons that the Government is pushing for civil servants to return to offices?Select any which apply . 194

65 Would you say there are too many, too few, or the right number of civil servants in the UK? 197

66 Separately to the discussion around civil servants working at home, there have been plans to reduce the number of civil servants in the UK. Do you support or oppose plans to reduce the number of civil servants? 200

67 You said you would support plans to reduce the number of civil servants in the UK. Why is this?Select any which apply 203

68 You said you would oppose plans to reduce the number of civil servants in the UK. Why is this?Select any which apply 206

69 One of the ways in which the Government is reducing the number of civil servants is by pausing the “fast stream”, which is the graduate scheme for people early in their careers, or just leaving education, to join the senior civil service. It is one of the most widely applied for grad-schemes in the country, receiving over 50,000 applicants each year.Do you support or oppose this move to stop the “fast stream”? 209

70 Do you agree or disagree with the following: Civil servants should be able to go on strike if they choose to do so 212

71 Do you agree or disagree with the following: The Government should be able to force civil servants to work from the office 215

72 Do you agree or disagree with the following: There are larger issues in Government currently than where civil servants are working from 218

73 Do you agree or disagree with the following: Whether civil servants work from home or not is an important political issue 221

74 Do you agree or disagree with the following: Civil servants should follow the Government’s orders, even if they do not like them 224

75 Do you agree or disagree with the following: Civil servants in general are too well-paid 227

76 Do you agree or disagree with the following: Civil servants in general are lazy 230

77 Do you agree or disagree with the following: I do not personally care where civil servants work 233

78 Imagine a political party was running a campaign to be elected, and made the following pledge: “We will force civil servants to return to the offices, at risk of losing their jobs or having their pay reduced, so that we no longer waste the taxpayers money on empty offices in London” Would it make you more or less likely to support that political party, or have no real effect either way? 236

79 Imagine a political party was running a campaign to be elected, and made the following pledge: “We will allow civil servants to work from home rather than forcing them to come into offices in central London, allowing us to sell off expensive office space which is costing the taxpayer” Would it make you more or less likely to support that political party, or have no real effect either way? 239

Note:

BASE: Respondents who oppose plans to reduce the number of civil servants

(69.A) One of the ways in which the Government is reducing the number of civil servants is by pausing the “fast stream”, which is the graduate scheme for people early in their careers, or just leaving education, to join the senior civil service. It is one of the most widely applied for grad-schemes in the country, receiving over 50,000 applicants each year. Do you support or oppose this move to stop the “fast stream”?

Fieldwork: 18th Jul - 24th Jul 2022

Data weighted by interlocking age and gender to Nationally Representative Proportions

(78.A) Imagine a political party was running a campaign to be elected, and made the following pledge: “We will force civil servants to return to the offices, at risk of losing their jobs or having their pay reduced, so that we no longer waste the taxpayers money on empty offices in London” Would it make you more or less likely to support that political party, or have no real effect either way?

	Total	Age						Education					EU 2016 Vote
