

# Public First Poll for Citizens Advice

**Fieldwork:** 19th Jul - 23rd Jul 2022  
**Interview method:** Online Survey  
**Population represented:** UK Adults  
**Sample size:** 2012

## **Methodology:**

All results are weighted using Iterative Proportional Fitting, or 'Raking'. The results are weighted by interlocking age & gender, region and social grade to Nationally Representative Proportions

Public First is a member of the BPC and abides by its rules. For more information please contact Seb Wride ([seb@publicfirst.co.uk](mailto:seb@publicfirst.co.uk))

**List of Tables**

1	Which company currently supplies your electricity? . . . . .	6
2	Have you switched your gas supplier in the last five years? . . . . .	8
3	Have you switched your electricity supplier in the last five years? . . . . .	10
4	You said that you switched your gas supplier in the last five years. How often do you tend to switch your supplier? . . . . .	12
5	You said that you switched your electricity supplier in the last five years. How often do you tend to switch your supplier? . . . . .	14
6	Has your electricity supplier gone bust in the past year? . . . . .	16
7	You said your electricity supplier went bust in the past year. Which of the following is true for you? . . . . .	18
8	Which of the following is closest to what you currently pay for your energy (gas and electricity) bill each month? . . . . .	20
9	How confident or unconfident are you that you understand how your energy bills are calculated? . . . . .	22
10	What proportion of your energy bill do you think goes to your energy supplier as profit? . . . . .	24
11	Do you currently receive any financial support from the government or from your energy supplier to help you pay your energy bills? . . . . .	26
12	There are a number of schemes that are designed to help certain households pay their energy bills. Before today, how familiar were you with the following schemes?: Winter Fuel Payment . . . . .	28
13	There are a number of schemes that are designed to help certain households pay their energy bills. Before today, how familiar were you with the following schemes?: Cold Weather Payments . . . . .	30
14	There are a number of schemes that are designed to help certain households pay their energy bills. Before today, how familiar were you with the following schemes?: Warm Home Discount . . . . .	32
15	There are a number of schemes that are designed to help certain households pay their energy bills. Before today, how familiar were you with the following schemes?: Boiler Upgrade Scheme . . . . .	34
16	There are a number of schemes that are designed to help certain households pay their energy bills. Before today, how familiar were you with the following schemes?: Home Upgrade Grant . . . . .	36
17	There are a number of schemes that are designed to help certain households pay their energy bills. Before today, how familiar were you with the following schemes?: Social Housing Decarbonisation Fund . . . . .	38
18	There are a number of schemes that are designed to help certain households pay their energy bills. Before today, how familiar were you with the following schemes?: Energy Company Obligation . . . . .	40
19	There are a number of schemes that are designed to help certain households pay their energy bills. Before today, how familiar were you with the following schemes?: Warm Front . . . . .	42
20	There are a number of schemes that are designed to help certain households pay their energy bills. Before today, how familiar were you with the following schemes?: Energy Bills Support Scheme . . . . .	44
21	There are a number of schemes that are designed to help certain households pay their energy bills. Before today, how familiar were you with the following schemes?: Hot Water Support Payment . . . . .	46
22	If you needed help or advice with your energy bill, who would you be most likely to approach for support?Please select up to three. . . . .	48
23	You said that you get financial support to help you pay your energy bills. Who did you first approach for support?Please select who you first approached for support, even if they were not able to help you directly. . . . .	50
24	And how useful did you find the support you received from the first place you went? . . . . .	52
25	You said you receive support on your energy bills. To what extent do you agree or disagree with the following?: I found it confusing to work out what support I was entitled to . . . . .	54

26 You said you receive support on your energy bills. To what extent do you agree or disagree with the following?: I had no idea support was available for vulnerable households . . . . . 56

27 You said you receive support on your energy bills. To what extent do you agree or disagree with the following?: I had to wait too long after I completed my application before I was able to access support . . . . . 58

28 You said you receive support on your energy bills. To what extent do you agree or disagree with the following?: Applying for support was too time consuming . . . . . 60

29 You said you receive support on your energy bills. To what extent do you agree or disagree with the following?: Applying for support was too complicated 62

30 You said you receive support on your energy bills. Which of the following is closest to your view? . . . . . 64

31 Since January 2019, there has been a legal price cap placed on what energy suppliers can charge for standard gas and electricity tariffs. Were you aware of this? . . . . . 66

32 Since January 2019, there has been a legal price cap placed on what energy suppliers can charge for standard gas and electricity tariffs. To what extent do you support or oppose this? . . . . . 68

33 The energy price cap has been raised in recent months and is likely to go up again later this year. To what extent do you agree or disagree with the following?: The price cap needs to change over time to reflect changing costs in the energy market . . . . . 70

34 The energy price cap has been raised in recent months and is likely to go up again later this year. To what extent do you agree or disagree with the following?: The price cap going up reduces the protection it gives . . . . . 72

35 The energy price cap has been raised in recent months and is likely to go up again later this year. To what extent do you agree or disagree with the following?: The price cap should be fixed and not change over time . . . . . 74

36 Have you previously had insulation measures fitted to your home and do you think you will need to fit more? . . . . . 76

37 Some households face high energy bills because their home is poorly insulated. Who do you think should be primarily responsible for improving the energy efficiency of such homes?Please select up to three. . . . . 78

38 Some people argue that the best way to help people who are struggling with their energy bills is to install more insulation measures in those people’s homes. Others argue the best way to help people is to give them money to help them pay their bills. Which of the following is closest to your view? . . . 80

39 If the government offered to fit extra insulation measures to your house, which of the following would be closest to your view? . . . . . 82

40 Is it said that improved insulation can reduce your energy bills for many years ahead. Which of the following might put you off installing improved insulation?Please select all that apply. . . . . 84

41 Some families struggle to pay their energy bills. In addition to any other general forms of support that people might receive (such as Universal Credit), should there be a form of financial support available specifically to help with energy bills? . . . . . 86

42 Some families struggle to pay their water bills. In addition to any other general forms of support that people might receive, should there be a form of financial support available specifically to help with water bills? . . . . . 88

43 Some families struggle to pay their household food bills. In addition to any other general forms of support that people might receive, should there be a form of financial support available specifically to help with household food bills? . . . . . 90

44 You said you were in favour of additional help being made available to help cover the cost of household energy bills, but not water bills. Why is this? Please select all that apply. . . . . 92

45 You said you were in favour of additional help being made available to help cover the cost of household energy bills, but not food costs. Why is this? Please select all that apply. . . . . 94

46 If the government were to give financial support specifically to help with energy bills, which of the following comes closest to your view?Please rank on a scale from 1 to 5. . . . . 96

47 If the government put in place a form of financial support specifically to help with energy bills targeted to those most in need, who should it target?Please select up to three groups. . . . . 98

48 The energy price cap was intended to be a temporary measure. Which of the following comes closest to your view? . . . . . 100

49 You said that you thought households with low incomes should receive financial support. How do you think this support should be provided?Please select all that apply. . . . . 102

50 You thought households with low incomes should receive financial support. Imagine the support was to start this year. How much should this support be worth? . . . . . 104

51 In the next few years, the cost of energy bills may reduce to more normal levels. Should additional financial support continue to be available, even if energy bills reduce to more normal levels? . . . . . 106

52 You said that you thought households with young children should receive financial support. How do you think this support should be provided?Please select all that apply. . . . . 108

53 You thought households with young children should receive financial support. Imagine the support was to start this year. How much should this support be worth? . . . . . 110

54 In the next few years, the cost of energy bills may reduce to more normal levels. Should additional financial support continue to be available, even if energy bills reduce to more normal levels? . . . . . 112

55 You said that you thought pensioners and the elderly should receive financial support. How do you think this support should be provided?Please select all that apply. . . . . 114

56 You thought pensioners and the elderly should receive financial support. Imagine the support was to start this year. How much should this support be worth? . . . . . 116

57 In the next few years, the cost of energy bills may reduce to more normal levels. Should additional financial support continue to be available, even if energy bills reduce to more normal levels? . . . . . 118

58 You said that you thought people with disabilities should receive financial support. How do you think this support should be provided?Please select all that apply. . . . . 120

59 You thought people with disabilities should receive financial support. Imagine the support was to start this year. How much should this support be worth?122

60 In the next few years, the cost of energy bills may reduce to more normal levels. Should additional financial support continue to be available, even if energy bills reduce to more normal levels? . . . . . 124

61 You said that you thought people with chronic (long-term) health conditions should receive financial support. How do you think this support should be provided?Please select all that apply. . . . . 126

62 You thought people with chronic (long-term) health conditions should receive financial support. Imagine the support was to start this year. How much should this support be worth? . . . . . 128

63 In the next few years, the cost of energy bills may reduce to more normal levels. Should additional financial support continue to be available, even if energy bills reduce to more normal levels? . . . . . 130

64 You said that you thought people with mental health conditions should receive financial support. How do you think this support should be provided?Please select all that apply. . . . . 132

65 You thought people with mental health conditions should receive financial support. Imagine the support was to start this year. How much should this support be worth? . . . . . 134

66 In the next few years, the cost of energy bills may reduce to more normal levels. Should additional financial support continue to be available, even if energy bills reduce to more normal levels? . . . . . 136

67 You said that you thought households that pay their bills by cheque should receive financial support. How do you think this support should be provided?Please select all that apply. . . . . 138

68 You thought households that pay their bills by cheque should receive financial support. Imagine the support was to start this year. How much should this support be worth? . . . . . 140

69 In the next few years, the cost of energy bills may reduce to more normal levels. Should additional financial support continue to be available, even if energy bills reduce to more normal levels? . . . . . 142

70 You said that you thought households that have a prepayment meter fitted should receive financial support. How do you think this support should be provided?Please select all that apply. . . . . 144

71 You thought households that have a prepayment meter fitted should receive financial support. Imagine the support was to start this year. How much should this support be worth? . . . . . 146

72 In the next few years, the cost of energy bills may reduce to more normal levels. Should additional financial support continue to be available, even if energy bills reduce to more normal levels? . . . . . 148

73 You said that you thought people living in social housing should receive financial support. How do you think this support should be provided?Please select all that apply. . . . . 150

74 You thought people living in social housing should receive financial support. Imagine the support was to start this year. How much should this support be worth? . . . . . 152

75 In the next few years, the cost of energy bills may reduce to more normal levels. Should additional financial support continue to be available, even if energy bills reduce to more normal levels? . . . . . 154

76 You said that you thought people living in the private rented sector should receive financial support. How do you think this support should be provided?Please select all that apply. . . . . 156

77 You thought people living in the private rented sector should receive financial support. Imagine the support was to start this year. How much should this support be worth? . . . . . 158

78 In the next few years, the cost of energy bills may reduce to more normal levels. Should additional financial support continue to be available, even if energy bills reduce to more normal levels? . . . . . 160

79 You said that you thought people living in poorly insulated homes should receive financial support. How do you think this support should be provided?Please select all that apply. . . . . 162

80 You thought people living in poorly insulated homes should receive financial support. Imagine the support was to start this year. How much should this support be worth? . . . . . 164

81 In the next few years, the cost of energy bills may reduce to more normal levels. Should additional financial support continue to be available, even if energy bills reduce to more normal levels? . . . . . 166

82 You said that households with low incomes should continue to receive financial support with their energy bills. Imagine energy prices have returned to more normal levels. How much should that support be worth? . . . . . 168

83 You said that households with young children should continue to receive financial support with their energy bills. Imagine energy prices have returned to more normal levels. How much should that support be worth? . . . . . 170

84 You said that pensioners and the elderly should continue to receive financial support with their energy bills. Imagine energy prices have returned to more normal levels. How much should that support be worth? . . . . . 172

85 You said that people with disabilities should continue to receive financial support with their energy bills. Imagine energy prices have returned to more normal levels. How much should that support be worth? . . . . . 174

86 You said that people with chronic (long-term) health conditions should continue to receive financial support with their energy bills. Imagine energy prices have returned to more normal levels. How much should that support be worth? . . . . . 176

87 You said that people with mental health conditions should continue to receive financial support with their energy bills. Imagine energy prices have returned to more normal levels. How much should that support be worth? . . . . . 178

88 You said that households that pay their bills by cheque should continue to receive financial support with their energy bills. Imagine energy prices have returned to more normal levels. How much should that support be worth? . . . . . 180

89	You said that households that have a prepayment meter fitted should continue to receive financial support with their energy bills. Imagine energy prices have returned to more normal levels. How much should that support be worth? . . . . .	182
90	You said that people living in social housing should continue to receive financial support with their energy bills. Imagine energy prices have returned to more normal levels. How much should that support be worth? . . . . .	184
91	You said that people living in the private rented sector should continue to receive financial support with their energy bills. Imagine energy prices have returned to more normal levels. How much should that support be worth? . . . . .	186
92	You said that people living in poorly insulated homes should continue to receive financial support with their energy bills. Imagine energy prices have returned to more normal levels. How much should that support be worth? . . . . .	188

(1.A) Which company currently supplies your electricity?
