

# Public First Poll for UCL Institute of Education

**Fieldwork:** 18th Jan - 24th Jan 2022  
**Interview method:** Online Survey  
**Population represented:** UK parents of children aged 5-18 in school  
**Sample size:** 1007

## Methodology:

All results are weighted using Iterative Proportional Fitting, or 'Raking'. The results are weighted by region and social grade to Nationally Representative Proportions

Public First is a member of the BPC and abides by its rules. For more information please contact Seb Wride ([seb@publicfirst.co.uk](mailto:seb@publicfirst.co.uk))

**List of Tables**

1	How would you rate the general quality of teaching your child receives from their school? Please think about your youngest child aged 5-18 in school . . . .	5
2	And how would you say the quality of your child’s education compares to other children in the UK?Please think about your youngest child aged 5-18 in school . . . . .	9
3	Children are often aware of important topics in wider society which are politically relevant. Which of these topics would you say are most important to your child? Please think about your youngest child aged 5-18 in schoolPlease select up to three options . . . . .	13
4	How important, or unimportant is it to you that your child gets taught about the following in school?Please think about your youngest child aged 5-18 in school: Climate change . . . . .	17
5	How important, or unimportant is it to you that your child gets taught about the following in school?Please think about your youngest child aged 5-18 in school: Racism . . . . .	21
6	How important, or unimportant is it to you that your child gets taught about the following in school?Please think about your youngest child aged 5-18 in school: Evolution . . . . .	25
7	How important, or unimportant is it to you that your child gets taught about the following in school?Please think about your youngest child aged 5-18 in school: Same-sex relationships . . . . .	29
8	How important, or unimportant is it to you that your child gets taught about the following in school?Please think about your youngest child aged 5-18 in school: Healthy eating . . . . .	33
9	How important, or unimportant is it to you that your child gets taught about the following in school?Please think about your youngest child aged 5-18 in school: Online safety . . . . .	37
10	How important, or unimportant is it to you that your child gets taught about the following in school?Please think about your youngest child aged 5-18 in school: Mental health . . . . .	41
11	Has your child has been taught about the following topics in school?Please think about your youngest child aged 5-18 in school: Climate change . . . . .	45
12	Has your child has been taught about the following topics in school?Please think about your youngest child aged 5-18 in school: Racism . . . . .	48
13	Has your child has been taught about the following topics in school?Please think about your youngest child aged 5-18 in school: Evolution . . . . .	51
14	Has your child has been taught about the following topics in school?Please think about your youngest child aged 5-18 in school: Same-sex relationships . . . . .	54
15	Has your child has been taught about the following topics in school?Please think about your youngest child aged 5-18 in school: Healthy eating . . . . .	57
16	Has your child has been taught about the following topics in school?Please think about your youngest child aged 5-18 in school: Online safety . . . . .	60
17	Has your child has been taught about the following topics in school?Please think about your youngest child aged 5-18 in school: Mental health . . . . .	63
18	In general, how would you rate the quality of education your child has received at their school on the following topic: Climate Change . . . . .	66
19	In general, how would you rate the quality of education your child has received at their school on the following topic: Racism . . . . .	70
20	In general, how would you rate the quality of education your child has received at their school on the following topic: Evolution . . . . .	74
21	In general, how would you rate the quality of education your child has received at their school on the following topic: Same-sex relationships . . . . .	78
22	In general, how would you rate the quality of education your child has received at their school on the following topic: Healthy eating . . . . .	82
23	In general, how would you rate the quality of education your child has received at their school on the following topic: Online safety . . . . .	86
24	In general, how would you rate the quality of education your child has received at their school on the following topic: Mental health . . . . .	90
25	To what extent do you trust, or not, schools and teachers to be fully equipped to teach about the following?: Climate change . . . . .	94
26	To what extent do you trust, or not, schools and teachers to be fully equipped to teach about the following?: Racism . . . . .	98
27	To what extent do you trust, or not, schools and teachers to be fully equipped to teach about the following?: Evolution . . . . .	102
28	To what extent do you trust, or not, schools and teachers to be fully equipped to teach about the following?: Same-sex relationships . . . . .	106
29	To what extent do you trust, or not, schools and teachers to be fully equipped to teach about the following?: Healthy eating . . . . .	110

30 To what extent do you trust, or not, schools and teachers to be fully equipped to teach about the following?: Online safety . . . . . 114

31 To what extent do you trust, or not, schools and teachers to be fully equipped to teach about the following?: Mental health . . . . . 118

32 You said that you did not think that it is important for your child to be taught about climate change in school. In your view, what are the reasons for this?Please select all that apply. . . . . 122

33 You said that you thought it was important for your child to be taught about climate change in school. In your view, what are the reasons for this?Please select all that apply. . . . . 126

34 You said your child has been taught about climate change in school. How aware are you personally of what they learn about climate change at school? . 130

35 To the best of your knowledge, has your child learned about or done any of the following with regards to climate change through their school?Please think about your youngest child aged 5-18 in schoolPlease select all that apply . . . . . 134

36 Which of the following have you experienced as a result of your child learning about climate change in school, if any?Please only include responses which came as a result of learning in schoolPlease select all that apply . . . . . 138

37 Has your child spoken to you about any of the following issues or subjects?Please think about your youngest child aged 5-18 in schoolPlease select all that apply . . . . . 142

38 How easy or difficult would you find answering questions about the following from your child?Please think about your youngest child aged 5-18 in school: The need to protect our environment and climate . . . . . 146

39 How easy or difficult would you find answering questions about the following from your child?Please think about your youngest child aged 5-18 in school: Discrimination faced by people of a different race or ethnicity . . . . . 150

40 How easy or difficult would you find answering questions about the following from your child?Please think about your youngest child aged 5-18 in school: Discrimination faced by women and girls . . . . . 154

41 How easy or difficult would you find answering questions about the following from your child?Please think about your youngest child aged 5-18 in school: Discrimination faced by people of different sexual orientation . . . . . 158

42 How easy or difficult would you find answering questions about the following from your child?Please think about your youngest child aged 5-18 in school: Issues relating to people who move to the UK from abroad . . . . . 162

43 How easy or difficult would you find answering questions about the following from your child?Please think about your youngest child aged 5-18 in school: The UK leaving the European Union . . . . . 166

44 How easy or difficult would you find answering questions about the following from your child?Please think about your youngest child aged 5-18 in school: Inequality between wealthy and poor people . . . . . 170

45 How easy or difficult would you find answering questions about the following from your child?Please think about your youngest child aged 5-18 in school: The issue of people who do not have a home and sleep on the streets . . . . . 174

46 How easy or difficult would you find answering questions about the following from your child?Please think about your youngest child aged 5-18 in school: Crime and violence . . . . . 178

47 How easy or difficult would you find answering questions about the following from your child?Please think about your youngest child aged 5-18 in school: Fake news and disinformation . . . . . 182

48 How easy or difficult would it be for your child to access reliable information on the following topics if they wanted to? Please think about your youngest child aged 5-18 in school: Climate change . . . . . 186

49 How easy or difficult would it be for your child to access reliable information on the following topics if they wanted to? Please think about your youngest child aged 5-18 in school: Racism . . . . . 190

50 How easy or difficult would it be for your child to access reliable information on the following topics if they wanted to? Please think about your youngest child aged 5-18 in school: Evolution . . . . . 194

51 How easy or difficult would it be for your child to access reliable information on the following topics if they wanted to? Please think about your youngest child aged 5-18 in school: Same-sex relationships . . . . . 198

52 How easy or difficult would it be for your child to access reliable information on the following topics if they wanted to? Please think about your youngest child aged 5-18 in school: Healthy eating . . . . . 202

53 How easy or difficult would it be for your child to access reliable information on the following topics if they wanted to? Please think about your youngest child aged 5-18 in school: Online safety . . . . . 206

54 How easy or difficult would it be for your child to access reliable information on the following topics if they wanted to? Please think about your youngest child aged 5-18 in school: Mental health . . . . . 210

55 Which of the following school subjects would you expect Climate Change Education to be part of, if any?Please select all that apply . . . . . 214

56 Which of the following ways would you prefer your child to learn about climate change in school, if at all?Please think about your youngest child aged 5-18 in school . . . . . 218

57 Some schools have gone a step further in teaching about climate change in a more holistic way by expanding climate action to the whole school rather than simply teaching about it in the classroom. This includes things such as school recycling schemes, tree planting, food growing, etc. Would you support or oppose your child’s school taking such an approach?Please think about your youngest child aged 5-18 in school . . . . . 222

58 What would you want to see more of as part of your child’s climate change teaching in school, if anything?Please select up to three . . . . . 226

59 Which sources have you used to find information on climate change for you or your child before, if any?Please select all that apply . . . . . 230

60 Which would you most prefer your child to learn about climate change from, if any?Please select up to three . . . . . 234

61 Thinking about the climate change education which your child has received from their school, how would you rate it on the following areas...: Giving my child a scientific understanding of why climate change happens . . . . . 238

62 Thinking about the climate change education which your child has received from their school, how would you rate it on the following areas...: Teaching my child about what steps they can personally take . . . . . 242

63 Thinking about the climate change education which your child has received from their school, how would you rate it on the following areas...: Teaching my child of the impacts of climate change . . . . . 246

64 Thinking about the climate change education which your child has received from their school, how would you rate it on the following areas...: Getting my child interested in climate change . . . . . 250

65 Thinking about the climate change education which your child has received from their school, how would you rate it on the following areas...: Giving my child hope for the future . . . . . 254

66 Thinking about the climate change education which your child has received from their school, how would you rate it on the following areas...: Teaching my child to value nature . . . . . 258

67 Do you agree or disagree with the following...: My child’s education about climate change has prepared them for the future . . . . . 262

68 Do you agree or disagree with the following...: Schools spend too much time talking about climate change . . . . . 266

69 Do you agree or disagree with the following...: Climate Change Education at schools is biased . . . . . 270

70 Do you agree or disagree with the following...: There is not enough education on climate change at schools . . . . . 274

71 Do you agree or disagree with the following...: Climate Change Education should be integrated into every aspect of the curriculum . . . . . 278

72 Do you agree or disagree with the following...: Young people tend to care more about climate change than older generations . . . . . 282

73 You agreed that young people tend to care more about climate change than older generations. In your view, what are the main reasons for this?Please select up to three . . . . . 286

74 Some schools have allegedly been supportive of children missing school to take part in climate protests, such as during the global school climate strikes in 2019. Which of the following comes closest to your view? . . . . . 290

75 What, if any, transferable skills do you think children would gain from Climate Change Education?Please select all that apply . . . . . 294

76	At what age do you think your child should begin to be taught about the following issues related to climate change, if at all?: Scientific education on climate change . . . . .	298
77	At what age do you think your child should begin to be taught about the following issues related to climate change, if at all?: Education on the social impact of climate change . . . . .	302
78	At what age do you think your child should begin to be taught about the following issues related to climate change, if at all?: Educational visits covering climate change (e.g. to museums, nature reserves, scientific centres) . . . . .	306
79	At what age do you think your child should begin to be taught about the following issues related to climate change, if at all?: Education on the history of climate change . . . . .	310
80	At what age do you think your child should begin to be taught about the following issues related to climate change, if at all?: Learning about finding reliable information sources on climate change . . . . .	314
81	At what age do you think your child should begin to be taught about the following issues related to climate change, if at all?: Learning about technological innovations and solutions for climate change . . . . .	318
82	At what age do you think your child should begin to be taught about the following issues related to climate change, if at all?: Discussions and activities to encourage personal action for the environment (e.g. how to recycle, how to not waste energy, composting, green transportation) . . . . .	322
83	At what age do you think your child should begin to be taught about the following issues related to climate change, if at all?: Learning about work and careers that help tackle climate change . . . . .	326
84	At what age do you think your child should begin to be taught about the following issues related to climate change, if at all?: Environmental initiatives in their school (e.g. composting, cycling schemes, food growing) . . . . .	330
85	At what age do you think your child should begin to be taught about the following issues related to climate change, if at all?: Learn about climate anxiety and how to address it . . . . .	334
86	At what age do you think your child should begin to be taught about the following issues related to climate change, if at all?: Taking part in protests about climate change . . . . .	338

(57.A) Some schools have gone a step further in teaching about climate change in a more holistic way by expanding climate action to the whole school rather than simply teaching about it in the classroom. This includes things such as school recycling schemes, tree planting, food growing, etc. Would you support or oppose your child’s school taking such an approach? Please think about your youngest child aged 5-18 in school

(57.C) Some schools have gone a step further in teaching about climate change in a more holistic way by expanding climate action to the whole school rather than simply teaching about it in the classroom. This includes things such as school recycling schemes, tree planting, food growing, etc. Would you support or oppose your child’s school taking such an approach? Please think about your youngest child aged 5-18 in school
