

Public First Poll for More in Common

Fieldwork: 13th Apr - 21st Apr 2022
Interview method: Online Survey
Population represented: GB Adults
Sample size: 3140

Methodology:

All results are weighted using Iterative Proportional Fitting, or 'Raking'. The results are weighted by: interlocking age & gender & education, interlocking region & 2019 vote, social grade, political attention and EU Referendum vote

Vote Intention estimate is based off respondents who indicated that they had a 7 or greater chance out of 10 of voting in an upcoming election.

All polls are subject to a wide range of potential sources of error. On the basis of the historical record of the polls at recent general elections, there is a 9 in 10 chance that the true value of a party's support lies within 4 points of the estimates provided by this poll, and a 2 in 3 chance that they lie within 2 points.

Public First is a member of the BPC and abides by its rules. For more information please contact the polling team (polling@publicfirst.co.uk)

List of Tables

1	Vote intention	2
2	Which of the following do you most agree with when it comes to Downing Street parties that took place during the pandemic?	5
3	Following the police fining the Prime Minister and Chancellor for breaking Covid-19 lockdown rules in 2020. Which of the following best describes your view?	8
4	Which of the following best reflects how you feel about the Prime Minister having been fined as a result of Downing Street parties during the pandemic: .	11
