**MYTH:** If we go on strike, won't Amazon and Fedex deliver our packages—and take our customers?

**FACT:** UPS delivers 20 million+ packages a day. Competitors can't absorb all that volume overnight.

The UPS workforce is irreplaceable:
- Over 125,000 delivery vehicles
- 616 aircraft
- 1,000 package operating facilities in the US
- 85 million square feet of warehouse space

Without UPS workers, all of this shuts down. And no competitor or PVD can replace it.
