

TRAINING COURSE ANNOUNCEMENT

NEW COURSE

2-Hr Hazard Recognition Course Washington Gas Workers (Virtual Classroom Training)

COURSE DESCRIPTION

This course is designed to increase Washington Gas workers' knowledge of the process of identifying potential hazards in the workplace. The goal of hazard recognition is to prevent accidents, illnesses, and injuries by identifying hazards before they can cause harm to employees or others, as well as property damage. It is an ongoing process that involves regular inspections, audits, and employee training to ensure that hazards are identified and controlled promptly.

This course will cover topics on:

- OSHA Focus Four Hazards (Falls, Electrocution, Struck-By, Caught-In or Between)
- Safety Hazards
- Health Hazards
- Hazard Recognition
- Hazard Communication
- Personal Protective Clothing and Equipment
- Ergonomics/Material Handling
- Fire and Explosions
- Confined Spaces
- Hazardous Materials Transportation

COURSE FORMAT

This is a virtual course which will be conducted via Zoom. This course will maximize online interactions between instructors and facilitators with student-workers. All students will be able to engage with course material as well as work in groups collectively.

STEPS TO COMPLETE THE COURSE

1. Create an account (located under log in for first time users)
2. Verify account through email
3. Select link to Log in or scan QR code and select 2-Hr Hazard Recognition Course - Washington Gas Workers
