MANAGEMENT PTY LTD

*Adaptive land + sea
management
with those who care
about the future...*

**Our company is a certified Social Enterprise.
We are committed to working in a way that feels right.**
Professional Services Suite

Social

Traders

Unlocking business for good

Our Purpose

We help people to manage landscapes to be healthier by connecting people, projects and places, using practical adaptive management and collaboration tools.

Conservation Management – Certified by Social Traders as a Social Enterprise.

As a Social Enterprise we

Social Traders

Unlocking business for good

- Apply commercial strategies to maximise improvements in human and environmental well-being rather than maximizing profits for external shareholders.
- Are driven by public and community causes; social, environmental, cultural and economic.
- Derive our income from trade, not donations or grants.
- Use 70% of our profits to achieve our social purpose.

Conservation Management’s Contribution

We believe that positive conservation impact comes from people actively managing natural resources, which in turn helps the communities who live within that landscape.

We achieve our Social Enterprise purpose through

Re-investment of profit; Co-investment; Pro-bono program support; Sponsorship; Direct gifts and Donations.

Using the best tools

We are proud to apply Healthy Country Planning (HCP) and the Open Standards.

HCP continues to evolve, with many communities, organisations and individuals contributing globally.

HCP is not owned by any one organisation or person, and is licensed under the Creative Commons.

People we work with
