- Access to **Funding Networks**
- **Project management**
- **Mapping**  
and other Geographic Information System (GIS) services
- **Monitoring, Evaluation and Reporting**

*Adaptive land + sea management with those who care about the future.*

## Conservation Managements business growth comes from working with people and delivering positive outcomes.

**Our company is a registered Social Enterprise – we are committed to working in a way that feels right.**  
Our Social + Environmental Enterprise Purpose ensures we reinvest 70% of company profits into achieving our mission:

*"We help people to manage landscapes to be healthier by connecting, people, projects and places, using practical adaptive management and collaboration tools"*

### The right people working together in the right way:

We find solutions, establish pathways and implement actions that achieve meaningful outcomes for people and environments; locally and internationally. We use the Open Standards for the Practice of Conservation process which is applied successfully internationally. As adaptive project managers with extensive networks, we are aware of innovations and global trends. We apply these locally.

### We work with:

### We support you with:

Conservation Management is proud to use Healthy Country Planning and the Open Standards.
