Abraham Presentations seek 2nd/3rd Year University Student

Can you help? We seek assistance

To find a 2nd/3rd year university student who can spare about 3 or 4 hours per week to help develop our free community service directly focused on the elderly of the UK's Jewish community. The students location is not important to the role as it would all be remote work.

The expertise required is in:

- Market research
- Computer technology
- Administration
- Information technology

Do you know anyone?

It could be a grandchild, nephew, or niece.

If so simply contact askus@abe-events.org, addressing me personally.

sincerely

Johnny Sueke London
