

## **Tagar project for students.**

Tagar is a project sponsored by the World Beitar Youth movement which seek to capacitate and connect jewish students on campuses through interesting activities, seminars, and a trip to Israel at the end of the year. This project also seeks to connect American Jewry to Israel, and for that reason, part of the sessions will be with Israeli leaders.

Every month, there will be an activity in/outside the campus either related to Israel, zionism, Judaism, volunteering and doing tikun olam. Also, will be a seminar in Latin-America by the end of the year.

We are looking to hire a local coordinator in The UK that together with the office of Tagar in Israel organize the annual calendar of activities on campuses.

Any further question, please contact Andres in the mail [andres@betar.org.il](mailto:andres@betar.org.il) or in the number +972537881901.
