Dear Leader Jeffries, Representative Nadler and Representative Goldman,

We write to urge your support for Representative Jasmine Crockett as the next Ranking Democrat on the House Committee on Oversight and Government Reform.

Rep. Crockett's sharp legal skill, tactical precision, and unrelenting commitment to truth and accountability make her uniquely suited for this role. Her ability to dissect complex legal issues and navigate procedure is not only impressive but essential in today's political climate.

She has been one of our boldest voices against GOP disinformation, Trump-era corruption, DOJ politicization, and unchecked federal spending, including the abomination that is Elon Musk. She fiercely defends civil liberties and consistently shows that Democrats can lead with clarity and strength.

We deeply respect the institutional knowledge of the senior members vying for this position. But with democracy under assault and the public demanding visible, principled leadership, seniority alone is not enough. We need a fighter with fresh perspective, legal discipline, and the courage to meet this challenge. A leader that knows how to fight smart, communicate clearly, and connect with the public. Crockett does all three

Democrats are trailing in messaging, social media, and real-time communication. The GOP dominates narratives with speed and outrage while our facts and values struggle to break through. Rep. Crockett is a communicator built for this moment. She commands attention, counters misinformation instantly, and speaks directly to people where they are - online and engaged.

As Vice Ranking Member under the late Rep. Gerry Connolly, she is ready to lead on Day One. A formidable civil rights attorney and a proven force on both the Oversight and Judiciary Committees, she has the credibility, courage, and readiness to lead.

Once again, we urge you to vote for Representative Jasmine Crockett as Ranking Member of the House Committee on Oversight and Government Reform.

Respectfully,

Village Independent Democrats
