

I am a current school teacher. I would really urge OPI to not allow the proposed change. It will greatly affect the students in our district. Our librarians do so much with our students and staff that we would not be able to offer very many opportunities for our students without them. They are already overloaded with responsibilities. If you take numbers away from us, those opportunities will become extinct and our librarians will not be able to handle the workload. Please don't do this; for the sake of the students and our staff.
