

# Sustainable Australia Party

NSW election | 25 March 2023

VOTE **1**

Councillor  
William Bourke  
for  
NSW Upper House

*"I'm running for the NSW Legislative Council to de-corrupt politics in NSW and implement sustainable solutions for our future."*

**Sustainable Australia Party**  
#RedefiningGrowth

Sustainable Australia Party is an **independent community movement** with a **science and evidence-based** policy platform.

**Sustainable Australia Party**  
#RedefiningGrowth

## SUSTAINABLE SOLUTIONS

Councillor William Bourke has a real plan for NSW to **protect our environment, stop overdevelopment and stop corruption**, including:

- Protecting endangered species habitats, native forests and local tree canopies
- Reducing Australia's waste production
- Action on climate change
- Stopping inappropriate high-rise and sprawl
- Delivering new community infrastructure before more housing
- Stabilising Australia's population size
- Transparent reporting of political donations and lobbying
- Banning political donations from big business and unions

We have more **sustainable solutions** in our policy platform to address **Australia's growing economic, environmental and social problems** including the housing affordability crisis, overcrowded public transport, road congestion, record high immigration-fuelled rapid population growth, political and property developer corruption, privatisation of key public assets, economic de-industrialisation, foreign ownership, problem gambling, an underfunded arts sector and ageism.
