**Nueces County Republican Party Calls for Prayers for
Evergreen High Victims**

Corpus Christi, Nueces County, Texas —

On September 10th, a tragedy occurred at Evergreen High School in Colorado when a student opened fire and shot two fellow students, wounding them, before fatally shooting himself. The hearts of the Nueces County Republican Party go out to the victims and their families in this sad time. Students should be able to go to their campuses without fear for their lives.

We request that the people of Nueces County lift prayers for the victims and their families. We pray for the victims to make a swift recovery and for them and their families to be comforted and to find peace in this tragic circumstance. Prayers matter and uniting together as an American people in response to these moments is where we can show our strength and unwillingness to allow violence and malcontent victory.

We urge this message specifically today on the 24th anniversary of September 11th. That was a time when the nation came together in the wake of a tragedy and stood strong together. Our prayers go out again today for the victims of that heartbreaking attack and the first responders who worked diligently that day. We will never forget.
