

MADE TO MISLEAD: HOW TO SPOT FAKE ABORTION CLINICS

Crisis Pregnancy Centers (CPC), aka fake clinics, exist to coerce pregnant folks out of abortion care. Here are some classic CPC red flags:

- * Provides limited or no health care services or isn't a licensed facility
- * Uses vague or co-opting language in their ads or name like, "Hope Pregnancy Resource Center" or "Women's Choice Care Center"
- * Receives fundings from anti-abortion legislatures or organizations
- * Inappropriately projects religious or moral beliefs onto patients
- * Refuses to refer out to abortion providers or stalls referral attempts
- * Advertises free pregnancy tests or ultrasounds without mention of additional services
- * Targets low-income & unserved communities

When searching for real clinics, you can use trusted sites like Abortion Finder and I Need An A.
