

## Women's Equality Party Conference

26 November 2022

---

Motion Title: **Accelerating Climate Justice**

---

Amendment Title: **Amendment to Accelerating Climate Justice**

---

### Amended Motion text:

(N.B. New text is in lilac and underlined.)

1 The Women's Equality Party Conference 2022 reaffirms its commitment to accelerating  
2 action to address the climate crisis and recognises that there can be no Climate Justice  
3 without Social Justice. Equality lies at the heart of the interlocking crises we face, and  
4 women and children bear the brunt of the current climate, energy and cost of living crises.

5 The Women's Equality Party calls on the UK government to immediately address the  
6 intersecting crises impacting UK households. Measures should take explicit account of  
7 intersectional inequality and should target the poorest and single parent families.  
8 Addressing these crises is urgent and potentially life-saving.

9 In order to deliver a faster and fairer climate transition and to reverse the unequal and unjust  
10 impacts of the climate, energy and cost of living crises, the Women's Equality Party demands  
11 that the UK Government:

- 12 1. Immediately establishes a national scheme to fully fund the insulation of all social  
13 housing and for the relevant developers to fully fund insulation costs of all new build  
14 properties in Britain by 2025.
  - 15 2. Within 6 months produce and implement a legally binding national plan to fully fund full  
16 low-energy and low-carbon whole-house retrofit, and reinstate grants, which should be  
17 means tested, for installation of renewable energy, for all homes in Britain by 2030.
  - 18 3. Within 2 years scrap the existing price cap system and replace it with a new system of  
19 free basic energy.
-

---

20 4. By 2030 phase out all fossil fuel exploitation and achieve full decarbonisation of the UK  
21 economy.
