FAQ

How do I look up in-network providers?

With our large national eye care network, you can take advantage of personalized care from a private practice, convenient retail chain, or specialty online retailer. Visit www.myuhcvision.com and complete a provider search. Our network is referred to as UHC Vision, but some providers will reference Spectera which is the exact same as UHC Vision.

Can I get glasses and contacts with the plan?

The plan will cover lenses for frames or contact lenses per 12 months.

What lens options are covered?

Standard scratch coating, polycarbonates, basic and high-end progressives, tints/UV, transition lenses, standard anti-reflective coating are all covered in full under the plan. You can add other lens options which have price protection to save you money.

How do I order contacts?

You can either get contacts that are on our formulary list, or non-formulary contacts. If you get contacts on the formulary list, you can receive up to 6 boxes which include the fitting/evaluation and two follow-up visits. If you order contacts that are not on the formulary list, you have an allowance of \$150 that will go towards materials, not towards fitting/evaluation.

Is laser vision correction covered?

It is not a covered benefit, but you can receive up to a 35% discount on national average prices of laser vision correction at more than 800 Quallsight LASIK locations.

What else do I get with the plan?

You have access to multiple savings and discounts such as 20% off additional pairs of glasses, 10% off contact lenses using uhcglasses.com, 30% off blue-light filtration, hearing aids, and over 200 discounts and rewards for nutrition, memberships, electronics, travel and more with BenefitHub access.
