**MOTION:** be it resolved that FAUST stands in solidarity with the York University Faculty Association, CUPE Local 3903, the York Federation of Students, the York University Graduate Students' Association, and other faculty unions across the country who condemn the unprecedented suspensions to admissions to programs at York University, and we call on York University to rescind these enrolment suspensions. Even in the face of shrinking government funding, these suspensions have been made without proper academic consultation and directly hinder diverse and inclusive educational offerings available to students. This weakens the university's commitment to critical thinking as part of our educational mission and the university's role in working for social justice in the world, including defending queer and trans community members and putting the TRC calls to action into practice.
